The No Surprises Act

One Simple Solution

The No Surprises Act's Transparency in Coverage Regulations obligate group health plans and insurers to provide qualified payment amounts and ensure correct and complete provider directories starting January 2022. Health plans need a reliable transparency solution in place as soon as possible.

The problem with *most* transparency solutions

- They aren't built to support your growth
- You're paying for other solutions you don't need to get access to the one you do
- Implementation takes too long

You need a solution that addresses these problems and more.

We can help.

Features

Unparalleled scalability and reliability powered by Salesforce

A bolt-on solution that can integrate with any existing tech stack

60-day average implementation, so you're up and running quickly and efficiently

At IPS, we built Transparency+, a stand-alone transparency solution designed to meet all key components required by the No Surprises Act, including accessing machine readable files, providing qualified payment amounts, and providing advanced EOBs.

IPS is leading in the industry by providing the most comprehensive, flexible transparency solution on the market with the most efficient implementation possible.

Beyond Price Transparency

For administrators looking for a full benefits administration platform, IPS has you covered with a full-stack tech solution requiring no additional investment in IT resources.
